Skills for People is an independent charity. Our advocates are independent, they are not a member of the health or social care team which support you, and they play no part in your treatment and care. We have been awarded the Advocacy Quality Performance Mark (QPM) from the National Development Team for Inclusion (NDTi).

Professionals, the health system, and the justice system. Even the best parent-advocates and self-advocates do not always find justice or the perfect solution.

BASIC ADVOCACY SKILLS

Physician involvement in the development of policy and regulations related to the health of patients and communities has been widely—although not universally—recognized as a legitimate activity known as health advocacy. Dobson et al 5 have distinguished two different types of activities associated with health advocacy. The first involves advocacy for individual patients.

Advocacy Skills for Health and Social Care Professionals ...

Health advocacy or health activism encompasses direct service to the individual or family as well as activities that promote health and access to health care in communities and the larger public. Advocates support and promote the rights of the patient in the health care arena, help build capacity to improve community health and enhance health policy initiatives focused on available, safe and quality care. Health advocates are best suited to address the challenge of patient-centered care in our c
