Personal and professional coaching, which has emerged as a powerful career in the last several years, has shifted the paradigm of how people who seek help with life transitions find a "helper" to partner with them in designing their desired future. No matter what kind of sub-specialty a coach might have, life coaching is the basic operating system: a whole-person, client-centered approach. Here, Pat Williams, who has been a leader in the life coaching movement, has co-authored another essential book for therapists working as coaches. *Becoming a Professional Life Coach* draws on the wisdom of years of collective experience that have gone into designing the curriculum for the Institute for Life Coach Training. This curriculum has trained therapists and psychologists around the world to add coaching to their current businesses. This book presents the essential elements of life coach training program in a content-rich form that is equivalent to a graduate-level education in the field.

More than just fixing what ails them, many therapists today seek to help clients achieve personal and professional goals and navigate life changes successfully—a variety of practice called life coaching. This book offers a complete strategy professionals can use to incorporate life coaching into their practices. *Becoming a Life Coach* compares the role of the therapist to that of the life coach; the role of the patient to that of the client; the service of the mentally ill to that of the mentally healthy; treatment to collaboration; and finally the differences in professional standing between these two endeavors. Using real coaching exercises, the book teaches therapists everything they need to know to start and maintain a successful coaching practice. It includes

A fascinating guide to a career as a life coach written by award-winning journalist Tom Chiarella and based on the real-life experiences of an expert in the field—essential reading for someone considering a path to this rewarding profession. Being a life coach is a unique career with the ability to change lives. *Becoming a Life Coach* takes us behind-the-scenes through the experiences of two top-tier life coaches who spend their days working one-on-one with clients to create new paths forward. The result is an entertaining, practical look at how one gets into and grows within this rewarding career.

The financial planning profession is undergoing a transformation from the historical approach of transactions and straight asset accumulation to an integrated financial and life planning strategy for customers. *Your Clients for Life: The Definitive Guide to Becoming a Successful Financial Life Planner* is a roadmap that financial planners can use to understand how to make the connection between financial planning and life planning. Its premise is that advisors of the future will need to deal more with money as an element of a client's life that cannot be viewed alone.

DISCOVER: What does it take to become a wildly successful life coach? *Life Coaching Made Easy* Life coaches are all the rage today in our modern society. together, or crazy even. You can begin a successful life coaching career just by following this simple guide on getting started. This is quickly becoming a "hot" job market and those that put in the time, the learning, and the training will become the best at it. **WHAT YOU'LL LEARN...** What exactly is life coaching? How can you become a life coach? What type of skills, tools, and training do you need to be an effective coach? How to become qualified as a life coach and what type of education should you obtain? How to begin your career as a life coach The 7 secret tactics all successful life coaches know about While some of us always have answers to the big questions in life, many do not. For some, facing a change is no big deal for they can easily adapt to the changes that life inevitably brings along. But others might have a hard time embracing the change and coping with it. This is where some individuals require additional help, an extra mind that can come up with solutions, bring an alternative perspective to the table and better judge the present with advice on what to decide for a better future. This is where a life coach fits in the picture. Many rely on life coaches to ease them through important transitions in their lives, to help improve their careers or to simply advance in life. You don't have to be a perfect person to become a life coach. You can start from wherever you are if you are willing to put in the time and dedication to your career. This life coaching handbook will help you on your way. Would you like to Know More? You're trying to help--but is it working? Helping others is a good thing. Often, as a leader, manager, doctor, teacher, or coach, it's central to your job. But even the most well-intentioned efforts to help others can be undermined by a simple truth: We almost always focus on trying to "fix" people, correcting problems or filling the gaps between where they are and where we think they should be. Unfortunately, this doesn't work well, if at all, to inspire sustained learning or positive change. There's a better way. In this powerful, practical book, emotional intelligence expert Richard Boyatzis and Weatherhead School of Management colleagues Melvin Smith and Ellen Van Oosten present a clear and hopeful message. The way to help someone learn and change, they say, cannot be focused primarily on fixing problems, but instead must connect to that person's positive vision of themselves or an inspiring dream or goal they've long held. This is what great coaches do--they know that people draw energy from their visions and dreams, and that same energy sustains their efforts to change, even through difficult times. In contrast, problem-centered approaches trigger physiological responses that make a person defensive and less open to new ideas. The authors use rich and moving real-life stories, as well as decades of original research, to show how this distinctively positive mode of coaching—what they call "coaching with

compassion"--opens people up to thinking creatively and helps them to learn and grow in meaningful and sustainable ways. Filled with probing questions and exercises that encourage self-reflection, *Helping People Change* will forever alter the way all of us think about and practice what we do when we try to help.

Tackling relationships, career, and family issues, John Kim, LMFT, thinks of himself as a life-style designer, not a therapist. His radical new approach, that he sometimes calls "self-help in a shot glass" is easy, real, and to the point. He helps people make changes to their lives so that personal growth happens organically, just by living. Let's face it, therapy is a luxury. Few of us have the time or money to devote to going to an office every week. With anecdotes illustrating principles in action (in relatable and sometimes irreverent fashion) and stand-alone practices and exercises, Kim gives readers the tools and directions to focus on what's right with them instead of what's wrong. When John Kim was going through the end of a relationship, he began blogging as *The Angry Therapist*, documenting his personal journey post-divorce. Traditional therapists avoid transparency, but Kim preferred the language of "me too" as opposed to "you should." He blogged about his own shortcomings, revelations, views on relationships, and the world. He spoke a different therapeutic language—open, raw, and at times subversive—and people responded. The *Angry Therapist* blog, that inspired this book, has been featured in *The Atlantic Monthly* and on NPR.
