The intimately related phenomena of dance and instrumental variation were prominent features of Spanish culture during the 17th and early 18th centuries. These variations (diferencias) on a set piece of music or choreographed movement permeated the activities of professional and amateur musicians, secular and sacred festivities, and were cultivated by the aristocracy as well as the lower class. The incorporation of variation into the instrumental music which accompanied dance enabled the instrumentalists to produce pieces of sufficient length and diversity to accommodate the needs of the dancers on different occasions. Frances Luttikhuizen chronicles the arrival, reception, and suppression of Protestant thought in sixteenth century Spain—referred to at that time as ‘Lutheranism’. It opens with several chapters describing the socio-political-religious context that prevailed in Spain at the beginning of the sixteenth century and the growing trend to use the vernacular for parts of the Mass, as well as for catechizing the populace. Special attention is given to the forerunners, that is, the early alumbrado-deixados, the role of Cardinal Cisneros, and the impact of Erasmus and Juan de Valdes, etc. The use of archival material provides new details regarding the historical framework and the spread of evangelical thought in sixteenth century Spain. enrich the main body of the work, which deals with the arrival and confiscation of evangelical literature, the attitude of Charles V and Philip II towards religious dissidents, and the severe persecution of the underground evangelical circles at Seville and Valladolid. Special attention is given to the many women involved in the movement. The recurrent mention of the discovery and confiscation of prohibited literature shows how books played an important role in the development of the movements. The final chapters focus on the exiles and their contributions, the persecution of foreigners, and the years up to the abolition of the Inquisition. The work concludes with the efforts made in the nineteenth century to rediscover the history of the persecuted sixteenth century Spanish Protestants and their writings.
