With a unique and stimulating perspective on the history of interpretation this book provides a guideline for the use of dictionaries and word studies.

This unique single-volume edition explores current issues in the interpretation of the Bible from the perspective of specific academic disciplines.

Is there a meaning in the Bible, or is meaning rather a matter of who is reading or of how one reads? Does Christian doctrine have anything to contribute to debates about interpretation, literary theory, and post modernity? These are questions of crucial importance for contemporary biblical studies and theology alike. Kevin Vanhoozer contends that the postmodern crisis in hermeneutics—" incredulity towards meaning, " a deep –set skepticism concerning the possibility of correct interpretation—is fundamentally a crisis in theology provoked by an inadequate view of God and by the announcement of God ' s " death." Part 1 examines the ways in which deconstruction and radical reader – response criticism " undo " the traditional concepts of author, text, and reading. Dr. Vanhoozer engages critically with the work of Derrida, Rorty, and Fish, among others, and demonstrates the detrimental influence of the postmodern " suspicion of hermeneutics " on biblical studies. In Part 2, Dr. Vanhoozer defends the concept of the author and the possibility of literary knowledge by drawing on the resources of Christian doctrine and by viewing meaning in terms of communicative action. He argues that there is a meaning in the text, that it can be known with relative adequacy, and that readers have a responsibility to do so by cultivating " interpretive virtues. " Successive chapters build on Trinitarian theology and speech act philosophy in order to treat the metaphysics, methodology, and morals of interpretation. From a Christian perspective, meaning and interpretation are ultimately grounded in God ' s own communicative action in creation, in the canon, and preeminently in Christ. Prominent features in Part 2 include a new account of the author ' s intention and of the literal sense, the reclaiming of the distinction between meaning and significance in terms of Word and Spirit, and the image of the reader as a disciple – martyr, whose vocation is to witness to something other than oneself. Is There a Meaning in This Text? guides the student toward greater confidence in the authority, clarity, and relevance of Scripture, and a well – reasoned expectation to understand accurately the message of the Bible. Is There a Meaning in This Text? is a comprehensive and creative analysis of current debates over biblical hermeneutics that draws on interdisciplinary resources, all coordinated by Christian theology. It makes a significant contribution to biblical interpretation that will be of interest to readers in a number of fields. The intention of the book is to revitalize and enlarge the concept of author – oriented interpretation and to restore confidence that readers of the Bible can reach understanding. The result is a major challenge to the central assumptions of postmodern biblical scholarship and a constructive alternative proposal—an Augustinian hermeneutic—that reinvigorates the notion of biblical authority and finds a new exegetical practice that recognizes the importance of both the reader ' s situation and the literal sense.

Does it matter how Christians in other times and places thought? For many contemporary Christians, questions about the role and value of church history can be difficult to tackle. Veteran teacher Bob Rea addresses these barriers, skillfully explaining not only why church history matters, but the difference it makes for life and ministry.

Mark Husbands and Jeffrey P. Greenman bring together select essays from the 2007 Wheaton Theology Conference, Ancient Faith for the Church's Future demonstrates the vitality and significance of the early church for contemporary Christian witness and practice. These fourteen essays provide for a significant evangelical resourcement by considering the importance of the thought and practice of the patristic church especially for our (1) interpreting Scripture, (2) engaging in missional witness through hospitality, social justice and evangelism, (3) renewing our worship and prayer, (4) grasping afresh our salvation through Jesus Christ, and (5) authentically engaging our surrounding culture. Fresh and forward-looking, this book leads the way toward a deeply rooted church that points beyond contemporary evangelical accommodation to civil religion, privatism and enlightenment methodologies toward its true vocation to bear vital witness to God's present and coming kingdom. Contributors include Christopher A. Hall Brian E. Daley, S.J. D. H. Williams Michael Graves Peter J. Leithart Nicholas Perrin Christine Pohl George Kalantzis Alan Kreider John Witvliet Paul I. Kim D. Stephen Long Jason Byassee

Invariably, people who read Scripture are forced to answer the question, "What is the 'literal sense'?" This question is not new. In the seventeenth century, John Lightfoot--signer of the Westminster Confession of Faith and a master of Hebrew and of rabbinic writings--wrestled with the same question, and his conclusions had a profound impact in the world of hermeneutics. In an age of much animosity towards the Jews, Lightfoot embraced the insights found in the Jewish writings while staying grounded in his reformational dogmatic theology. In so doing, his exegesis could properly be considered a via media between Reformed Scholasticism and Judaism. Lightfoot's hermeneutical principles and presuppositions outlined in this book not only provide valuable insight into his thinking but also reject the previously normative notion that Reformed Scholasticism has little to offer dogmatically or exegetically. The current tensions between systematic and biblical theology, the rise of interest in Second Temple and medieval Judaica, and the never-ending question of biblical authority make What Is the Literal Sense? an important read.

In this new paperback version, Graeme Goldsworthy examines the foundations and presuppositions of evangelical belief as it applies to the interpretation of the Bible. He then proposes an evangelical hermeneutic rightly centered in the gospel.

This volume plows new ground by focusing on exegetical method using one of Paul's letters, thus enabling the method to be worked out in greater detail and with more consistency than is possible in a traditional textbook on exegesis.

Biblical scholars have often contrasted the exegesis of the early church fathers from Syrian Antioch against that of the school of Alexandria. The Antiochenes have often been described as strictly historical-literal exegetes in contrast to the allegorical exegesis of the Alexandrians. Patristic scholars now challenge those stereotypes, some even arguing that few differences existed between the two groups.
