Prior to Zola-Jabulani District Hospital, the only other hospital in Soweto was Chris Hani Baragwanath Academic Hospital. Built during the apartheid years and originally called Baragwanath Hospital, under the democratic government it was named after Chris Hani, the leader of the South African Communist Party and chief of staff of Umkhonto we Sizwe, the armed wing of the African National Congress.

This anthology seeks to understand and appreciate a major phenomenon in South African literary and political life — the rise to prominence of a Black Consciousness poetry, called the New Black Poetry of the 1970s, or Soweto Poetry. The contributions, republished here 25 years later, gain resonance in retrospect. They draw on the insights of many leading literary commentators including Peter Abrahams, H.I.E Dhlomo, Nat Nakasa, Es'kia Mphahlele, James Matthews, Lionel Abrahams, Douglas Livingstone, Njabulo S. Ndebele, and Mbulelo Mzamane. They remind us of what editor Michael Chapman identifies as the inheritance of the Soweto voices, part of a global movement towards a non-elitist poetry of ethical power. The challenge of such an aesthetic, a poetry that is both simple and profound, lends continuing relevance to these perspectives. This collection was initially published in the revolutionary aftermath of Soweto '76 and is reprinted in this current edition.

The United Nations estimates that four billion people worldwide live outside the protection of the law.

These people can be driven from their land, intimidated by violence, and excluded from society. This book is about community paralegals - sometimes called barefoot lawyers - who demystify law and empower people to advocate for themselves. These paralegals date back to 1950s South Africa and are active today in many countries, but their role has largely been ignored by researchers. Community Paralegals and the Pursuit of Justice is the first book on the subject. Focusing on paralegal movements in six countries, Vivek Maru, Varun Gauri, and their coauthors have collected rich, vivid stories of paralegals helping people to take on injustice, from domestic violence to unlawful mining to denial of wages. From these stories emerges evidence of what works and how. The insights in the book will be of immense value in the global fight for universal justice. This title is also available as Open Access.

This book provides a timely and important summary of tabloid journalism in Africa, which clearly shows how tabloids in the African context play a unique role in the democratization process. Prior to this book, very little was known about how tabloid journalists operate in Africa. The book first explores the global practice of journalism and then focuses on tabloid journalism - finally situating the discussion within the African context. As well as concentrating on how tabloid journalism can be seen as part of the broader neo-liberal thinking in Africa, in which democracy and freedom of expression is promoted, it also looks at how tabloid journalism practice has been met with resistance from the alliance of forces. Chama draws on examples from across the continent looking at success stories and struggles within the sometime infotainment genre. Tabloid Journalism in Africa concludes that even though challenges exist, there is a strong case to suggest that the practice of tabloid journalism is being readily accepted by many people as part of the unique voices of democracy - even those which might be shocking yet true.

Winner of the Alex Award "Mike Muñoz Is a Holden Caulfield for a New Millennium--a '10th-generation peasant with a Mexican last name, raised by a single mom on an Indian reservation' . . . Evison, as in his previous four novels, has a light touch and humorously guides the reader, this time through the minefield that is working-class America." --The New York Times Book Review For Mike Muñoz, life has been a whole lot of waiting for something to happen. Not too many years out of high school and still doing menial work--and just fired from his latest gig as a lawn boy on a landscaping crew--he's smart enough to know that he's got to be the one to shake things up if he's ever going to change his life. But how? He's not qualified for much of anything. He has no particular talents, although he is stellar at handling a lawn mower and wielding clipping shears. But now that career seems to be behind him. So what's next for Mike Muñoz? In this funny, biting, touching, and ultimately inspiring novel, bestselling author Jonathan Evison takes the reader into the heart and mind of a young man determined to achieve the American dream of happiness and prosperity--who just so happens to find himself along the way.

This book is a printed edition of the Special Issue "Disability Human Rights Law" that was published in Laws

The African National Congress is light years beyond the liberation movement of old. It remains a juggernaut, but its control and dominance are no longer watertight. The ANC lives the contradictions of weaknesses, cracks and factions while retaining its colossal status. As a party-movement it draws on its liberation credentials, and extracts immense power from its deep anchorage in South Africa's people. It is immersed in electoral politics that marks the state of its overwhelming power cyclically. As government the ANC is the object of protest, but not protest designed to bring the ruling party to its knees. The ANC is in command of the state, yet fails to definitively counter the deficits that make South Africa's democracy seem so diluted. Its incredulous and thus far trusting supporters condemn but only rarely punish deployees who do not 'pass through the eye of the needle'. The ANC and the Regeneration of Political Power unpacks these contradictions. It focuses on four faces of the ANC's political power - the organisation, the people, political parties and elections, and policy and government - and explores how the ANC has acted since 1994 to continuously regenerate its power. By 2011-12 the power configurations around the ANC were converging to a conjuncture holding vexing uncertainties. This book presents insights into how South African politics - in many ways synonymous with the politics of the ANC - is likely to unfold in years and possibly decades to come.

By chronicling the transformations of hospitals from houses of mercy to tools of confinement, from dwellings of rehabilitation to spaces for clinical teaching and research, from rooms for birthing and dying to institutions of science and technology, this book provides a historical approach to understanding of today's hospitals. The story is told in a dozen episodes which illustrate hospitals in particular times and places, covering important themes and developments in the history of medicine and therapeutics, from ancient Greece to the era of AIDS. This book furnishes a unique insight into the world of meanings and emotions associated with hospital life and patienthood by including narratives by both patients and care givers. By conceiving of hospitals as houses of order capable of taming the chaos associated with suffering, illness, and death, we can better understand the significance of their ritualized routines and rules. From their beginnings, hospitals were places of spiritual and physical recovery. They should continue to respond to all human needs. As traditional testimonials to human empathy and benevolence, hospitals must endure as spaces of healing.

"South Africa possesses one of the richest popular music traditions in the world - from marabi to

Access Free Jabulani Zola Hospital Jobs

mbaqanga, from boeremusiek to bubblegum, from kwela to kwaito. Yet the risk that future generations of South Africans will not know their musical roots is very real. Of all the recordings made here since the 1930s, thousands have been lost for ever, for the powers-that-be never deemed them worthy of preservation. If one peruses the books that exist on South African popular music, one still finds that their authors have on occasion jumped to conclusions that were not as foregone as they had assumed. Yet the fault lies not with them, rather in the fact that there has been precious little documentation in South Africa of who played what, or who recorded what, with whom, and when. This is true of all music-making in this country, though it is most striking in the music of the black communities. Beyond memory: recording the history, moments and memories of South African music is an invaluable publication because it offers a first-hand account of the South African music scene of the past decades from the pen of Max Thamagana Mojapelo, who was situated in the very thick of things, thanks to his job as a DJ at the South African Broadcasting Corporation. This book -astonishing for the breadth of its coverage - is based on his diaries, on interviews he conducted and on numerous other sources, and we find in it not only the well-known names of recent South African music but a countless host of others whose contribution must be recorded if we and future generations are to gain an accurate picture of South African music history of the late 20th and early 21st centuries"--Publisher's description.

"South Africa has eleven official languages but in reality, there are twelve. The twelfth language is sign language, part of which has been developed by millions of South Africans across townships and cities--the language of commuters. As the taxi routes expand, the hand signs develop as a logical, visual language. Susan Woolf ... has catalogued the hand signals and linked them to the relevant taxi routes in a single user-friendly booklet."--P. xxii.
