"Vasectomy, Fresh Flounder and God?" is an anthology of sixty-one essays, several short stories and poems, one very short one act play and a few other things. As the title suggests, the subject matter varies from vasectomy to God. The book is funny, serious, thoughtful, bold and occasionally sad, but never dull. You will laugh at the story of Sarazin's "Vasectomy" and the "Missed Opportunity" with his heartthrob when he was twelve. "The Race", the story of a bazaar ocean sailboat race, may leave you shaking your head. The stories of "Gabe and Rose" and "Hank" will tug at your heart. Sarazin's views on "God?", morals and "Same Sex Marriage" may spark conversation, but there is no question of their clarity. This book is a journey through the eclectic mind of Harry Sarazin who writes what he thinks, always honestly and never shyly.

War Against the Weak is the gripping chronicle documenting how American corporate philanthropies launched a national campaign of ethnic cleansing in the United States, helped found and fund the Nazi eugenics of Hitler and Mengele -- and then created the modern movement of "human genetics." Some 60,000 Americans were sterilized under laws in 27 states. This expanded edition includes two new essays on state genocide.

Provides a study of euphemism and dysphemism in the early Dutch and English languages

Originally published in 1980, this new edition of More Than a Labour of Love is the first of our Women's Press Classics series, which celebrates our most enduring titles. Based on participant observation and in-depth interviews, this book describes the work women do in their homes, caring for children and partners, and maintaining the house. It shows how their lives are shaped by domestic responsibilities and challenges the ways in which their work is neither recognized nor valued. Arguing that the work they do is socially necessary and central to the economy, it calls for a transformation of current social and economic relations.

"The author's agenda in writing the book was to provoke critical thinking and awareness and to move beyond the simplistic rhetoric that so often characterizes much of public debate on health care matters. I have no doubt that he has achieved these aims...and more." Sociology Volume 43, Number 3, June 2009 " Sociology & Health Care is easy to read and offers an introduction into selected, but key areas, of the sociology of health and illness. It is a useful book for health care students as well as health care workers who are interested in the social aspects of their work, their job and how it all fits into the wider society. " Sociological Research Online Are patients ' customers ' ? What does this mean for the patient-practitioner relationship? What should the relationship be between expert knowledge and our own experiences when dealing with health and illness? Do people who are better off get better access to health care? Debates about the future of health care bring questions about patient choice, paternalism and inequalities to the fore. This book addresses some of the sociological issues surrounding these questions including: The social distribution of knowledge The basis of professional power Sources of social inequalities in health The ability of health care services to address these issues The book provides suggestions and examples of how sociological concepts and insights can be used to help think about important contemporary issues in health care. For that reason, it has a practical as well as academic purpose, contributing to improvement of the quality of interaction between patients and practitioners. The core themes running throughout the book are inequalities in health and the rise of chronic disease, with particular attention being given to psycho-social models of illness which locate individual experiences within wider social relationships. Sociology and Health Care is key reading for student nurses and those on allied health courses, and also appeals to a wide range of professionals who are interested in current debates in health and social care.

Hal Ashby set the standard for subsequent independent filmmakers by crafting unique, thoughtful, and challenging films that continue to influence new generations of directors. Initially finding success as an editor, Ashby won an Academy Award for editing In the Heat of the Night (1967), and he translated his skills as an editor into a career as one of the quintessential directors of 1970s. Perhaps best remembered for the enduring cult classic Harold and Maude (1971), Ashby quickly became known for melding quirky comedy and intense drama with performances from A-list actors such as Jack Nicholson in The Last Detail (1973), Warren Beatty and Goldie Hawn in Shampoo (1975), Jon Voight and Jane Fonda in Coming Home (1978), and Peter Sellers and Shirley MacLaine in Being There (1979). Ashby's personal life was difficult. He endured his parents' divorce, his father's suicide, and his own failed marriage all before the age of nineteen, and his notorious drug abuse contributed to the decline of his career near the end of his life. Ashby always operated outside Hollywood's

conventions, and though his output was tragically limited, the quality of his films continues to inspire modern directors as varied and talented as Judd Apatow and Wes Anderson, both of whom acknowledge Ashby as a primary influence. In *Being Hal Ashby: Life of a Hollywood Rebel*, the first full-length biography of the maverick filmmaker, author Nick Dawson masterfully tells the turbulent story of Ashby's life and career.

First Published in 1977. Routledge is an imprint of Taylor & Francis, an informa company.

In her first year as a missionary to a small group of native women in the Ecuadorian jungle, Elisabeth Elliot faced physical and spiritual trials. In *These Strange Ashes*, Elliot captures the mysteries and stark realities surrounding the colorful and primitive world in which she ministered. More than just a recounting of her early days, this is a beautifully crafted and deeply personal reflection on the important questions of life and a remarkable testimony to an authentic Christian commitment.

Life among the Auca Indians of Ecuador, by the widow of a missionary previously killed by the natives.
